

*Instructions: Please print and mail this form.*

## Green Tags Order Form

Green Tags are a tax-deductible way to offset the emission of carbon dioxide produced from the use of conventional electricity and to pay for clean air, a healthy environment and energy independence. Each Green Tag is based on 1,000 kilowatt-hours (kWh) of electricity generated by wind and solar facilities in the Western United States.

If you use 6,000 kWh of electricity per year (about average for a Maine household) the following is a breakdown of the number of Green Tags required to offset your electricity emissions at your desired level:

- 100% Annual Electricity Emissions Offset = 6 Green Tags = \$120
- 50% Annual Electricity Emissions Offset = 3 Green Tags = \$60
- 25% Annual Electricity Emissions Offset = 2 Green Tags = \$40

Order amount: _____ Green Tags @ \$20 each = \$ _____
Name: _____
Address: _____
City: _____
State: _____ Zip: _____ Telephone: _____
E-mail: _____

Your purchase is a tax-deductible charitable contribution. MeIPL will buy the number of Green Tags that you designate and retire the underlying tradable renewable energy certificates. You will receive an acknowledgement of your contribution.

*Please enclose a check made payable to MeIPL. Please do not send cash. Please return this order form and your check to:*

Maine Interfaith Power & Light  
P. O. Box 146, Brunswick, ME 04011

*Thank You!*
